Data Source: Maine Integrated Youth Health Survey (2009-2011), US. Youth Risk Behavior Risk Survey (US 2009)

*There are slight differences between methodologies between the Maine Integrated Youth Health Survey and the Maine Youth Risk Behavior Survey, and therefore the data from these difference sources may not be directly comparable.

Based on students who reported that they had ever been bullied on school property during the past 12 months

All percentages are weighted to be more representative of the population of Maine students and to adjust for non-response.

95% CI = 95% Confidence Interval.

NA = not available. Sexual orientation is not included on the middle school and 5th and 6th grade surveys.

** All racial categories are non-Hispanic except for "Hispanic."
